We just bought a new house it needed a new lawn bad. So I called our guy Ronnie at St. Louis Sod Install. They came out and in one day completed the best sod install in the neighborhood. With their full service maintenance we are assured to keep up the Best yard. Thanks again guys!

I chose StLouis sod installers for several reasons,, one they were very punctual and polite when estimating the project. Second they were very competitive, third they could start the project without delay, unlike the other companies I interviewed.

They did a great job and when they were done they had everything cleaned up and didn't leave me with extra work to do.

I am very happy with the entire project as I am certain you will be also .

500 sq sod jigsaw puzzle install around a new patio tied into existing yard no problem for Ron and the boys.. even though he had some issues with his truck that morning he still found a way to job done as promised and it looks great! I will definitely use them again if needed and would recommend them to anyone needing work done. Very professional, knowledgeable, and fair prices. Kudos Ron on a job well done!
